

Gardens Are Springing Up All Over TEGH

Nursing Alumni Garden

The snow and ice are melting and beautiful Gardens continue to spring up throughout our patient care areas. These beautiful mosaic arrangements of hand-painted tiles are lifting the spirits of the patients and families we treat.

There are many patient care areas of the Hospital that still need Gardens on their walls. For each tile purchased, you can also include a personal message from you memorializing or honouring the life of a loved one, a doctor or friend while at the same time helping us upgrade our facility and build towards a brighter future.

Physicians' Garden

"The Gardens' colourful uniqueness brightens and enhances the atmosphere in our patient waiting area for our patients seated there. It is a pleasant distraction for patients who are anxiously awaiting their diagnostic tests."

Harry Joseph - Director, Diagnostic Imaging

"We are all hoping for redevelopment of our current space in the near future. The funds donated will enable us to support the many health care needs of our community in a more effective manner. It is not uncommon to see people pause for a moment in front of the Gardens to take in the beauty."

*Marla Fryers - Vice President,
Programs and Chief Nursing Officer*
